

Research Committee

Purpose:

The HERO Research Committee sets the HERO Research Agenda and provides guidance and expertise in making HERO a respected contributor and major player in the creation, publication, and dissemination of unbiased and meaningful workplace health and well-being research and best practices. The Research Committee includes two subcommittees that operate under the direction of the Research Committee chairperson.

Chair: Steven Noeldner, PhD, Partner, Mercer

Research Subcommittees

Research Advisory Group

Chair: Seth Serxner, PhD, MPH, Chief Health Officer, Optum

Purpose: The Research Advisory Group helps set the HERO Research Agenda by aligning the goals of HERO and the Think Tank membership with workplace HWB research needs, opportunities, and funding.

Membership: Experienced workplace health and well-being researchers and practitioners are appointed by the Research Advisory Group Chair in consultation with the HERO CEO and Research Committee Chair, to assure an optimal blend of research expertise and experience to pursue HERO's research agenda.

Research Study Subcommittee

Co-chairs:

Kristi Rahrig Jenkins, PhD, MPH, Research Program Manager, MHealthy, Health and Well-Being Services, University of Michigan

Colleen Saringer, PhD, Lead Wellness Consultant, Alliant Clinical and Wellness Team

Purpose: To develop research study proposals and provide guidance, oversight, and expertise to the design and implementation of HERO- facilitated research.

Membership: Think Tank members knowledgeable about workplace health and well-being research, as well as employer and other stakeholder members who can specify research needs. Members include a mix of appointees based on expertise and volunteers.
